

Dear Fellows, Members and PCS users,

In anticipation of the introduction of the new PCS framework, the Faculty Board and Finance Committee have partnered together and with careful consideration, have made the decision to increase both the PCS and Fellows/Members fee, from May 2025 onward.

The PCS, Fellows and Members fee has remained consistent since 2011. In anticipation of the new Framework, we do hope you understand that the Faculty will undertake a new category of regulations to comply with, which will significantly increase admin workload and demand for Faculty staff. It is our intention, as always, to contribute additional funding to Faculty lead meetings, to use feedback provided by our Fellows, Members and PCS users, to improve the standard of education.

Please see below updated subscription fees, mandatory from May 2025:

- Fellows/Members and PCS Subscription: €700 (Discounted rate until 30<sup>th</sup> June 2025)
- Fellows/Members and PCS Subscription: €950 (Applied to renewals after 30<sup>th</sup> June 2025)
- PCS Subscription: €500

Please note: If you do not renew your Fellows/Members and PCS Subscription by 30<sup>th</sup> June 2025, the discounted fee will no longer be in effect and the full fee of €950 will apply.

## Payment via the RCSI Portal

Once logged in, the portal will notify you of your outstanding subscriptions. Fellow/Member and PCS payments will now be processed via the RCSI portal. This will allow you to process your Fellow/Member and PCS subscription fee at the beginning of May every year.

**Please note: Your data will not be migrated to the new PCS portal, and we advise all users to download their participation statements for the previous five years from MedHub as the Faculty will not be responsible to retain this data.**

We thank you for your understanding and welcome any questions you may have.
